February 1st, 1918

Honourable Frederick Nicholls,

Toronto.

My dear Senator:

Many thanks for your article on "the Conservation of Canadian Trade". Parts of it I had read before but I have now read the opening and the conclusion. You tough upon vital factors in our Canadian life which undoutedly requires a great deal of careful thought at the present leat after the war wh should find ourselves in great industrial difficulties. Just how your aim is to be effected is for others than men like myself to say.

With kind regards, I am,

Yours sincerely,

President.
